

PHM 115 PHARMACEUTICAL CALCULATIONS

COURSE DESCRIPTION:

Prerequisites: Enrollment in the Pharmacy Technology program or permission of the program director
 Corequisites: None

This course provides the student with the knowledge and skills necessary to perform pharmaceutical calculations. The student will learn to calculate the amount of drug to be dispensed, the amount of drug to be administered, and the amount of drug to be prepared. The student will also learn to calculate the amount of drug to be dispensed, the amount of drug to be administered, and the amount of drug to be prepared. The student will also learn to calculate the amount of drug to be dispensed, the amount of drug to be administered, and the amount of drug to be prepared.

LEARNING OUTCOMES:

Upon completion of this course, the student will be able to:

- 1. Calculate the amount of drug to be dispensed.
- 2. Calculate the amount of drug to be administered.
- 3. Calculate the amount of drug to be prepared.
- 4. Calculate the amount of drug to be dispensed, the amount of drug to be administered, and the amount of drug to be prepared.
- 5. Calculate the amount of drug to be dispensed, the amount of drug to be administered, and the amount of drug to be prepared.
- 6. Calculate the amount of drug to be dispensed, the amount of drug to be administered, and the amount of drug to be prepared.
- 7. Calculate the amount of drug to be dispensed, the amount of drug to be administered, and the amount of drug to be prepared.
- 8. Calculate the amount of drug to be dispensed, the amount of drug to be administered, and the amount of drug to be prepared.
- 9. Calculate the amount of drug to be dispensed, the amount of drug to be administered, and the amount of drug to be prepared.
- 10. Calculate the amount of drug to be dispensed, the amount of drug to be administered, and the amount of drug to be prepared.
