

The waitlist is a list of students who are interested in registering for a specific section of a closed class who are waiting to see if a seat becomes available. Students who have met with an advisor can choose to waitlist a class that is closed using [Self-Service](#). If a seat becomes available, an email is sent to the first person on the waitlist. The student has to register for the class the within 24 hours of the email received or the available seat is offered to the next person on the waitlist. Emails are sent through Durham Tech's student email account, [ConnectMail](#).

Using [Self-Service](#), search for the class you are interested in waitlisting. Go to the *Student Planning* screen, then choose the *Plan and Schedule* page. Select *Waitlist* on the left-hand side.

No. You cannot waitlist more than one section of a class.

Yes. You can register for one section of a class and waitlist a different section, but you cannot waitlist more than one section of a class.

If you do not register for that seat the same day you receive your waitlist notice email, the next student on the list will be given the opportunity to register. You will need to go back into Self-Service and add yourself to the waitlist for the class again.

It depends on if any seats become available

It depends on if any seats become available
